Re: Site Name: GMC-Fisher Body Division  
TDD No.: F05-9004-011  
PAN: FOH0331SB  
U.S. EPA No.: OHD004201091

Dear Mr. Kienle:

Ecology and Environment, Inc., has been retained by the U.S. Environmental Protection Agency under contract 68-01-7347 for the purpose of evaluating candidate sites for the National Priorities List under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA), and the Superfund Amendments and Reauthorization Act (SARA).

Information supplied to the U.S. EPA through CERCLA notifications as required by Section 103(c) of CERCLA has identified the property in question as a possible candidate for the National Priorities List. As part of our evaluation, the U.S. EPA has asked us to perform an on-site inspection of the property in question. This is the reason for my request to visit your facility at the former GMC-Fisher Body Division located at 1400 Lowell Street, Elyria, Ohio on September 18, 1990.

As discussed, an interview will be held at 8:00 a.m., followed by the collection of 7 soil samples. Contact me if you wish to receive a copy of our list of chemical parameters and detection limits. In the event that you want to duplicate our results, you will have to provide your own consulting firm and bottles.

I have attached a copy of the Letter of Introduction provided by the U.S. EPA for Ecology and Environment, Inc., employees engaged in field investigation work, which outlines the statutory basis for such inspections. Also enclosed is a copy of section 104(e) of CERCLA, outlining the authority of Ecology & Environment, Inc., to conduct inspections for the U.S. EPA, taken from Environment Reporter, published by the Bureau of National Affairs, Inc., Washington, D.C. 20037, February 24, 1989, 71:0710-0712. So you have a better understanding of the questions we need to ask, I have also attached a copy of the site inspection form.

Mr. Phillip Kienle
